-install

> ✅ `go installinstallgf`

Mac & Linux

```
wget -O gf https://github.com/gogf/gf/releases/latest/download/gf_$(go env
GOOS)_$(go env GOARCH) && chmod +x gf && ./gf install -y && rm ./gf
```

Windows

goframe

```
go env GOOS
go env GOARCH
```

Releases · gogf/gf (github.com)

go install

```
go install github.com/gogf/gf/cmd/gf/v2@latest #
go install github.com/gogf/gf/cmd/gf/v2@v2.5.5 # ( >= v2.5.5)
```

v2

Releases · gogf/gf (github.com)

gf/cmd/gf

v1

Releases · gogf/gf-cli (github.com)

gogf/gf-cli

https://github.com/gogf/gf/tree/master/cmd/gf

./gf install

gfgfgf

> ℹ️
>
> MacOSzshalias gf=gfgfprofile

```
$ ./gf_darwin_amd64 install
I found some installable paths for you(from $PATH):
  Id | Writable | Installed | Path
   0 |     true |      true | /usr/local/bin
   1 |     true |     false | /Users/john/Workspace/Go/GOPATH/bin
   2 |     true |     false | /Users/john/.gvm/bin
   4 |     true |     false | /Users/john/.ft
please choose one installation destination [default 0]:
gf binary is successfully installed to: /usr/local/bin
```
